

INTRODUCTION

Now you can keep track of the latest trends and developments in your speciality with **ScienceDirect's TOP25**. The TOP25 is a **free service** which provides top 25 lists of most read articles - counted by article downloads on ScienceDirect.

You can choose to view TOP25 lists by journal (from among more than 2,000 titles), or by subject (from 24 core subject areas). From these TOP25 results you can click and go straight to each article abstract, and then read the full article depending on your access rights.

You can sign-up to receive the free quarterly TOP25 alerts. When you [register](#), you can choose to receive alerts by subject or journal, and can subscribe to up to 10 alerts at once.

Select your ScienceDirect TOP25 Articles list using the drop-down menus. To view the TOP25 list of most read articles from a particular journal, first select a subject area and then choose a journal title.

Tips:

- Select [all subject areas] to produce a list of the most downloaded articles across all fields in ScienceDirect
- Select a subject area and leave as [all journals] to produce a combined TOP25 list from all journals in that field
- Try our Browse Archive function (below) to scroll through previous TOP25 lists
